H A V Í Ř O V

RUGBY CLUB HAVIROV
1966 - 2016

CLUB
RUGBY
HAVÍŘOV

Dear friends,

we are cordially inviting you to 11th year of the veteran tournament (above 35 years) called Havírov Turkey. We will play not only for the real baked turkey but also for the turkey in liquid form. In 2016 our club is going to celebrate 50th year of its formation and we would be pleased if veterans from your club could pay a visit to us.

We would like to invite you to play rugby and to have a good time with us. In the nearby town of Ostrava you can try to reach your personal best in number of bars and pubs visited at one street at one night. The Stodolní street is unique place not only within our republic but also the whole Europe: in this compact area you will find special atmosphere with more than 50 bars, pubs and restaurants. Many visitors from across our country and from abroad are coming here to entertain themselves, including whole rugby teams. F.e. this year the veterans from the English Lichtfield were there.

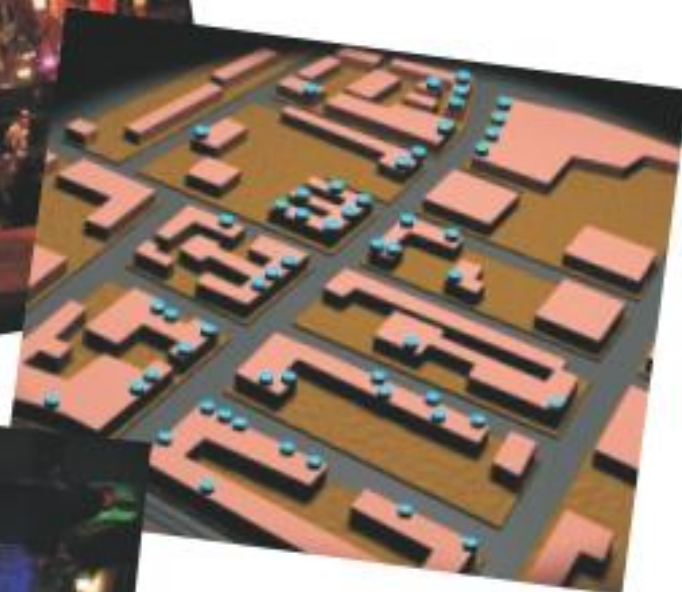

In addition to the Stodolní street you can visit within your stay here for example a well-known brewery or make a trip into the Beskydy mountains with the open-air museum in the town of Roznov. The region of the town of Ostrava (the part of it is the town of Havírov) is a big industrial area historically based on the coal mining and steel industry. Nowadays most of the mines and steelworks are closed but some of them are preserved as national cultural sights. Therefore you can also visit the mining museum Lanšký or the steel works museum Vítkovice with a mine, a cokery, a furnace and other special works at one place.

For the teams that would like to use the proximity of Poland we can organize also the trip to the historical town of Krakow (cca 180 km) or the visit of the death camp of Auschwitz.

Roman Čmíel
President RCH

OSTRAVA!!!

<http://www.stodolni.cz>

The area around Stodolní Street has recently become a new phenomenon in Ostrava. Five years ago, Stodolní Street was known as a place, which suffered from many negative attributes of an industrial metropolis. Nowadays, it is definitely the most drawing and frolic place in Ostrava. In the last research this fact was confirmed by Ostrava citizens. There are more than 40 clubs and pubs around Stodolní Street. Different atmosphere, style and kind of music in the pubs make Stodolní Street really special. People can choose music from the early 60's up today. House, disco, techno and hip-hop music - everybody can find their "cup of tea." Stodolní Street is a very popular place visited by thousands of people every weekend. Only clubs that offer music performances

Vitkovice National Cultural Monument

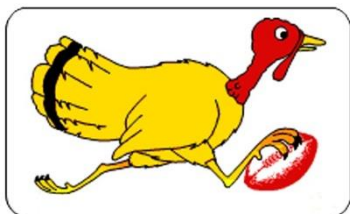

New Vitkovice that considers revitalization of so-called Bottom Vitkovice, which is an industrial area with National Cultural Monument of Blast Furnaces

Beskydy Mountains

The beskydy mountains offer a host cultural monuments and curiosities. There are the unique wooden folk-architecture churches in Bílá, Prašivá, Radhošť etc. and Rožnov - Walachian Open Air Museum
